

HATA Non Fee for Service Workgroup

HATA enables PMS vendors to

make forward thinking decisions that will allow the successful navigation to non fee-for-service payment methodologies; and,

influence how these methodologies will be implemented by bringing industry stakeholders together.

2017 Accomplishments:

Documented PMS Pain Non Fee For Service Pain Points

Created a HATA Fact Sheet Series

Shared Industry Value Based Payment White Papers and other information

HATA Non Fee for Service Workgroup Fact Series

HATA Non Fee for Service Workgroup Fact Sheet Series

Key questions to ask prior to moving into a Value Based Care Program?

A gradual transition to increased value based care payment models provides your practice with an opportunity to move from fee for service to a more engaged, coordinated and high-performing practice through benchmarking. Whether regulations and/or market forces are driving your practice to value based care contracts, the following facts sheets were created to provide you with key questions to ask physicians, payers and vendors to begin to better understand what your practices needs to consider to be successful.

What should my physicians know prior to moving into a Value Base Care program?

Target Audience

- PMS Customers
- Practice Administrators

Answers questions

- What should my physicians know prior to moving into a Value Based Care program?
- What questions should providers ask their vendor/administrative systems in preparation for Value Based Contracting?
- What questions should providers ask payers prior to Value Based Contracting?

These are created by your peers as a HATA member-benefit!

HATA Non Fee for Service Workgroup

2018 Focus

- Flesh out Value Based Payment workflow, regardless of vendor type, including,
 - Roles to be performed (i.e., attachments across PMS and EMR)
 - Information to be consumed/sent (i.e., gaps in care)
- Consider Value Based Payment Webinar with PAHCOM, promoting Fact Sheet developed in 2017.
